

Meadow Equine Practice AI Packages for 2010

This is an optional scheme for mare owners to help simplify and reduce costs of Veterinary work required to get your mare in foal both to resident and non-resident stallions. Some mares will require considerable attention and treatment, the costs of which can soon add up, using a package scheme will help to lower costs as all standard procedures involved in AI work are incorporated into the scheme regardless of how much work the mare will need.

Some mares will have had uncomplicated breeding histories but as unforeseen problems can arise we would recommend our packages to help cover any additional work that may be needed.

Having an onsite Veterinary practice specialising in Equine Reproduction at Meadow Stud allows costs to be kept to a minimum and we believe our package prices are therefore very competitive whilst maintaining a very high level of care and attention.

Package	Price
A - Meadow Stud Stallions up to 3 fresh AI cycles	£330
B - Meadow Stud Stallions fresh AI per cycle	£180
C - Non resident Stallions chilled AI per cycle	£210
D - Frozen AI per cycle	£300

*All prices exc of VAT, and are payable to "Meadow Equine Practice"

AI packages to **include**:

- Initial reproductive exam (pre-breeding evaluation)
- Uterine swabs prior to AI for bacteriological culture and cytology
- All ultrasound and manual exams prior to AI
- Hormone treatments to induce oestrous and to control ovulation inc. use of Ovuplant if required
- Assessment of semen quality and motility
- Insemination
- All ultrasound exams post insemination
- A single post insemination treatment including drugs (uterine irrigation and Oxytocin therapy)
- Pregnancy ultrasound exams at 14 - 16 days and 26 - 30 days (latter being the "Heart beat" scan)
- Manual reduction of twin pregnancies if applicable
- Caslick's procedure if required

AI packages to **exclude**:

- Livery fees and stud fees (payable to Meadow Stud or those parties supplying the semen)
- Semen collection fees / grooms fees
- External laboratory fees for CEM, EVA and EIA screening and any other tests required

- Sedation if required
- Regumate treatment if required
- Uterine biopsy and any other investigations deemed necessary
- Examination and treatment fees for any medical conditions that may arise whilst at Meadow Stud both of mare and or foal
- Treatment of chronic / severe endometritis requiring uterine lavage and prolonged treatment and any other reproductive abnormalities identified at the pre-breeding examination e.g. post foaling tears, uterine abnormalities etc
- All other possible procedures as not specified above in packages
- Courier costs of shipping semen / return of Equitainer

AI Package Terms and conditions:

- If a mare requires any work or treatment that would not be included under a package, the owner will be notified both to help keep them abreast of what additional work is needed and also to gain consent for that work or treatment to be carried out
- If option B, C or D is chosen for a mare, if she is not in foal at the end of that cycle, the owner / agent will be notified and consent requested for the start of another cycle
- If a package is undertaken for a mare and at a subsequent examination a problem is identified that would preclude her ability to conceive, this will be communicated to the owner / agent and possibilities with regards to investigations / treatments discussed, alternatively if the owner / agent opts out of further work, a part refund will be available depending on what level of work has already been performed
- The increased price of a Frozen AI package reflects the increased number of examinations required to optimise AI timing as well as the cost incurred to store the Frozen Semen
- If a mare leaves Meadow Stud before pregnancy scans are performed, no refunds will be made for these examinations being performed elsewhere
- Owners will be invoiced monthly for any items not included in the packages
- No additional "In foal fees" apply with our packages
